OVER 82 COMPETITORS
AT THE
GREAT PARIS EXPOSITION, 1867,

Being the highest honors and all the Gold Medals awarded to any Sewing Machine Company at this Exposition.

AS A HOLIDAY PRESENT, NOTHING WILL BE MORE APPRECIATED THAN ONE OF THESE MACHINES.

AMERICA, ENGLAND and FRANCE

NOW UNITED IN THIS GRAND PROCLAMATION!

Good news! good news! the Cable brings,
O'er all the wires it flies,
WHEELER & WILSON'S Sewing Machines
Bring home the GOLDEN Prize.

Our "Uncle Sam" first struck the note,
"John Bull" then caught the sound;
Now comes from France the echo back,
WHEELER & WILSON'S crowned!

And now no more the people doubt,
So long it's stood the test,
The thing is fairly noised about,
And they will buy the best.

We can supply to those who wish to purchase, STODDARD'S PATENT TUCK MARKER, one of the most useful attachments to the Machine yet invented, which while sewing one tuck makes the line of mark for the next.

525 MILES
OF THE
UNION PACIFIC RAILROAD
Running West from Omaha
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

THIS BRINGS THE LINE TO THE EASTERN BASE of the Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans Pass, the highest point on the road, by January. The maximum grade from the foot of the mountains to the summit is but eighty feet to the mile, while that of many eastern roads is over one hundred. Work in the rock-cuttings on the western slope will continue through the winter, and there is now no reason to doubt that the entire grand line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of from $16,000 to $48,000 per mile, for which it takes a *second lien* as security, and receives payment to a large if not to the full extent of its claim in services. These bonds are issued as each twenty mile section is finished, and after it has been examined by the United States Commissioners and pronounced to be in all respects a first-class road, thoroughly supplied with depots, repair-shops, stations, and all the necessary rolling stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mile, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine forests and abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more. Hon. E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the bonds to the Company only as the work progresses, so that they always represent an actual and productive value.

The authorized capital of the Company is One Hundred Million Dollars, of which over five millions have been paid in upon the work already done.

EARNINGS OF THE COMPANY.

At present, the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a *Government Work*, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

FIRST MORTGAGE BONDS

are offered for the present at 90 CENTS ON THE DOLLAR, IN U. S. CURRENCY, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

SIX PER CENT. IN GOLD,

or over NINE PER CENT. upon the investment. Subscriptions will be received in Portland by

FIRST NATIONAL BANK
OF PORTLAND, OREGON,

and in New York at the Company's Office, No. 20 Nassau street, and by

and by the Company's advertised Agents throughout the United States. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express.

A NEW PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at the Company's Offices or of its advertised Agents, or will be sent free on application.

JOHN J. CISCO, Treasurer, New York.

Railroad Letter from B. J. Pengra.

WASHINGTON CITY, Dec. 30, 1867.

HON. B. F. SIMPSON—*Dear Sir*, * * * Looking at the necessities of our young State, from what I conceive to be the correct standpoint, I cannot avoid feeling the necessity of harmony and concentration of action among our citizens of every shade of political faith, for their accomplishment.

I can see no injurious results which can possibly arise to any interest, or local action of our State, by what we propose to accomplish. And yet, either from narrow minded jealousies or want of thorough knowledge of what is proposed, it has many enemies in and outside of the State.

I will not take time to discuss the benefits to be derived, and the necessity of the State, for its future development, to engage at once in connecting itself with the great leading railroad arteries which are about to pass it on the south and on the north. If there be now, near the close of the nineteenth century, a necessity for such discussion, I leave it to more patient minds. To my mind, it would be admitting the prevalence of a degree of ignorance among us to an extent too hateful and painful to contemplate. There are many things in the laws and Constitution of Oregon, that to a certain extent, carry the impression to the outside world, that *we are behind* the present age. I would not be understood by this as saying that the Convention which framed our Constitution was made up of men without capacity—quite to the contrary. Many of them were gentlemen then, and now possessing the best minds among us, but, unfortunately, without experience. *They found us upon the foot-log and chained us there.* These embarrassments are such that it may become necessary to remove them, and bridge the way to civilization, before we can accomplish the good we need.

I hope and believe we shall succeed in obtaining the required aid from Government to make our enterprise a success. I think so from accumulating evidences I have not the time now nor the desire to make public to the fullest extent. It is this belief, and the great necessity for success, which stimulates me now, and has done in the past, to labor as though I knew no room for failure. Necessity, faith and industry, seldom fail to bear fruit—without them reasoning intelligence cannot work. Still I am not blind to the uncertainty of human affairs, and am prepared for whatever may come.

I have about determined since getting here, and after consultation with those most interested, to modify the programme so as to leave it an open question in reference to whether we will pass through the mountains by the Middle Fork of the Willamette and by way of Sprague's river and Goose Lake valleys to the Humboldt river, or keep on to Jackson county from the upper Willamette valley, and thence across the Cascade mountains by some eligible pass to Sprague's river, and thence as above described. I think best to do this, and leave that portion of the line to be determined upon by future engineering and ownership of stock, for the following reasons:

It gives better satisfaction, and arouses a higher degree of energy in Congress from certain sources.

It must certainly satisfy the Southern portion of our State that there is no disposition to leave their local interests out of sight, but opens the way for free competition, and no outside injurious influence will have to be met here from that source.

It gives, or opens an opportunity, for a provision in the bill, permitting and inviting any company which may now have an existence in the State, to join with it, as branches; or, by being merged into it, become one with it in interests of location and construction, the same as though they had never begun any separate organization. It will by this means concentrate all our efforts mainly upon one line, so that we will [illegible] possibility of failure.

To do this we will have to get up an entire new organization here, looking to the Legislature of our State and the State of Nevada for their consent to its operation, which I trust will not be hard to obtain. In doing this we shall retain all the names of the first corporators, and be able to add to them many others of our State whose names would add strength, and connect with us prominent men in California, Nevada, and here; all of which will be directly beneficial to success. With this accomplished, we may soon be connected by railroad line from Portland through the better portions of the State with the Central Pacific Railroad, at the north bend of the Humboldt, at a distance but little increased, from the point of connection, above the distance from there to San Francisco. When that is finished, and the great Northern road to the Sound is near completion, as it soon will be, we can continue the route of ours to connect with it in Washington Territory. By this means we shall at once develop every interest of our State.

I have frequently heard the view expressed that the establishment of such lines of trade would seriously and detrimentally interfere with the water navigation trade now going on along the coast and inland waters. These views do not harmonize with experience, and I may safely say are not correct. What is desired by ultimate connection with Puget Sound is facility for direct intercourse and commerce with the world. I mean by this, intercourse by heavy lines of clipper ships and ocean steamers, which we are utterly destitute of and must have to fully develop our resources. The facilities of commerce which we now enjoy, are only a river and coast trade, which bear the same relation to the other that the arm does to the body. When the great Northern railroad is completed, it at once shortens the line of travel and commerce from New York to China and all Asia, several hundred miles. It will cross the continent amidst centers of inland commerce, and facilities of agriculture, mining and manufacturing, second to none of its great competitors. Soon it will become a scene of busy life from end to end. Its travel and trade will meet and mingle with that of the Pacific ocean at a point where harbor facilities are unequaled on the American continent. These resources for such great development of wealth and the advancement of civilization, should be located with a clearness of perception and judgment as is fully adequate to the magnitude of the enterprise. And as they will add greatly to the health, resources, life and grandeur of the nation, it should help them to the needed extent of its power to bring them into life. When the entire subject is viewed as a whole, what mind fit to engage in commercial pursuits will for a moment dream that our present existing lines of river and coast trade would be injured? Rather let us inquire how many fold greater demands there will be upon them. Give us a connection by railway from the Humboldt through the length of Oregon, traversing her great fertile regions, on to the Sound, and the future will take care of its self. In this she only asks of Congress what in justice is her due. Neither of the great leading arteries touch her borders. With it she is at once and forever connected with all the surrounding advantages necessary to the development of her immense resources of agricultural, mineral, manufacturing, horticultural and timbered wealth, which, as a whole, is second to no State in the Union. The national revenue resulting from the development of these resources would soon return the interest on the credit we ask her to give us. If she refuses, the refusal will be a terrible, staggering blow to Oregon. And if we return, defeated, what hopes do you, and all others of deserved influence in our State, hold out for our future? Are we again to meet, face to face, upon the *foot-log*, without room to pass, and not daring to turn back; or shall we tear it away, and build a structure that will give us life?

Respectfully yours,
B. J. PENGRA.

A correspondent of the Buffalo *Commercial Advertiser* gives a plan which he thinks will enable all passengers to extricate themselves when a railway car upsets. He says: "Let the roof be loose and unattached to the sides of the car by any fastenings whatever, but secured in its place on the top of the car by means of a groove along the tops and ends of the sides of the car, say two or three inches deep, let the roof be made in divisions, say five or six feet wide; at each end of these divisions let there be an iron flange or tenon to fit easily into the groove. The roof would not be the least affected by the jolting or oscillation of the cars, but the moment that it fell on its side the roof would fall flat on the ground and leave the passengers to walk or crawl out."

The New York *Evening Post* and the *Journal of Commerce* are reported to have cleared $175,000 and $150,000 respectively last year.

THE ALABAMA CLAIMS QUESTION—HOW THE STATES MAY OBTAIN CANADA.

[From the London Post, Jan. 2d.]

The Government of the United States [illegible] swayed from its course by the [illegible] domestic politics, will probably do nothing [illegible] tately, especially if it sees that it may [illegible] gain its object without war. It must be well known throughout the Union that if any [illegible] were made on Canada now, we should be [illegible] in honor to defend it with every soldier we [illegible] put into the field, and every ship we could send to sea. It is equally well understood that it is [illegible] while the Canadians desire to [illegible] part [illegible] empire that our obligation will exist.

There is a large amount of genuine loyalty in the Canadian people, but the politics of the country are in the hands of a set of men who [illegible] everything in their time, [illegible] tionists. Politics in Canada are [illegible] negotiation of public loans, conve[illegible] sions, railway contracts, sales of public [illegible] anything which involves the [illegible] tion of large material in[illegible]. With [illegible] and we only give them the character [illegible] stantly giving one another, and with [illegible] sdo—Washington can deal [illegible] Downing street. But it must wait, and [illegible] knows how.

For the present, Downing street is [illegible] the better customer for Canada. It will [illegible] imperial guarantee for millions and [illegible] it will even beg the colony to take the [illegible]. This northwest territory, which is [illegible] Americanized as to the composition of its [illegible] tion, will probably be bought by Canada [illegible] money will be borrowed in [illegible] from this country, while the Government [illegible] well refuse to give the indis[illegible] without which its wealth might [illegible] able.

The deadlock of the Alabama [illegible] tinues to furnish grave [illegible] statesmen of England and [illegible]

The memory of old quarrels has [illegible] out, and there are a large number of American politicians who would be only too [illegible] a standing grievance [illegible] they might use for their own [illegible] with the certainty of being [illegible] wrong. Union Club at Silverton.

SILVERTON, OR., Feb. 13th, 1868.

EDITOR OREGONIAN: [illegible]

The ball is rolling and the Democracy [illegible] tonished to see that after all [illegible] up their organization in this State, Union [illegible] yet true to the principles that [illegible] the contest for the maintenance of the [illegible] ment.

We had a glorious meeting at Silverton [illegible] yesterday evening. The meeting was held under the auspices of the Silverton Union Club, and in commemoration of the birth-day of ABRAHAM LINCOLN.

The meeting was called to order by [illegible] venport, President of the Club, and [illegible] otic song from the Waldo Hills Glee Club [illegible] B. McDonald, Esq., of the *Unionist*, was introduced and delivered one of the best [illegible] politics that I have ever listened to. [illegible] (the man the Democrats have [illegible]) was called out and entertained the audience for some time with his peculiar style [illegible] which is very laughable and always to the [illegible] Rev. T. H. Small and [illegible] and made short speeches. The Hall [illegible] large) was crowded to its utmost capacity. After the speaking was over we were invited to an excellent supper, prepared by the patriotic [illegible] Silverton. The remark made by all [illegible] "We've had a good time."

THE DUBUQUE BRIDGE.—The [illegible] take from the Dubuque *Herald* of Jan. [illegible]

Monday was the day set for the [illegible] bridge over the Mississippi at this [illegible] were eight bids for the approach to the west end, five for the mason work, and seven for the [illegible] structure. The contract for building the [illegible] structure or iron work was let to the [illegible] Bridge Company, of Pittsburg. Their bid [illegible] $275,000. Other bids ranged from that figure to $350,000.

The stone work for piers and [illegible] let to Reynolds, Saulsgangh & Co., it is [illegible] for $242,000. The approach to the west end of the bridge was let to the same parties for $52,000.

Both the parties have had considerable [illegible] ience in their line. The Keystone Bridge Company constructed the draw bridge of the Cleveland & Toledo Railroad over the Cuyahoga River, at Cleveland, whose span is over three hundred feet; also over the Ohio River at [illegible] Messrs. Reynolds, Saulsgangh & Co. have [illegible] good deal of railroad work; also the [illegible] work for the suspension bridge at Minneapolis.

It will be seen that the whole cost of the bridge as contracted for is only $570,000, a [illegible] below what had been anticipated, [illegible] by the most sanguine. When a bridge was first talked of, it was supposed it would cost a million and a quarter; then, as the matter became better understood, the figure was dropped to a million, and finally to eight hundred thousand dollars, and but few had ventured to estimate it lower.

Explorations are to be made in [illegible] by digging, to discover some of its [illegible] ments. One of these is the Holy Sepulchre, around the present assumed location of which doubt is thrown. Another is the [illegible] containing the tombs of David and the Kings of Judah, the prototype of all royal tombs of the modern world. Apart from anything that might be found in the tombs, its discovery would be [illegible] more value as fixing the position of the City of David." The last time it was seen [illegible] Herod the Great broke into it in [illegible] but there can be no reasonable doubt that it is still buried beneath the [illegible] and still recoverable. Men to prosecute this work are on the spot.

Another Source of Alarm

The Salem *Chronicle* is in want of information, and looks to the *Oregonian* to supply the want. We showed in a former article that Congress has the right to fix the time for holding elections for Congressmen, but this does not satisfy the *Chronicle*. That paper cannot controvert this point, but seeks to evade it, and insists that it would be "an unwarrantable usurpation on the part of Congress for that body to enact a law deferring our general election, which, according to our laws, is to come off next June." If by "our general election," the *Chronicle* means the election for members of the Legislature and county officers, it is right in supposing that for Congress to pass an act of this kind would be "an unwarrantable usurpation." But no one ever dreamed of proposing that Congress should pass such an act. The *Chronicle's* professed fears are totally imaginary and supremely ridiculous. Such absurdity is worthy only of a person of uncandid dullness or impenetrable ignorance. We do not apply these terms to the *Chronicle*, but use them as an admonition to remind that paper that, unless it would sink to the low level which the so called "leading organ" of its party has reached, it must avoid these ridiculous statements and assumptions.

But the *Chronicle* proposes a number of questions for us to answer, and seems to be so much in earnest about them, that we cannot decline. It asks whether we do not know that "leading 'Radical' politicians and leading 'Radical' newspapers—such as the Springfield *Republican* for instance—are urging upon Congress the importance of the early enactment of a law regulating the qualifications of voters in all the States in all to all elections for members of Congress." We don't know what the Springfield *Republican* may be doing, nor is its course a matter of much consequence. It is a sort of Conservative Republican-Democratic-half Johnsonized paper, and neither speaks nor claims to be authorized to speak for any party. But we do know that there has been no indication of any disposition in Congress to pass such a law. It would be regarded by intelligent men of all parties as unconstitutional. It would not get half a dozen votes in Congress. Even Ashley, of Ohio, whose course has filled the Copperhead mind with so much patriotic concern, has acknowledged the incompetency of Congress to pass such an act, by introducing a resolution to amend the Constitution in that particular so that it could be done. But this resolution, though [illegible] at the last session, has never been taken up, and probably never will be. The most which has ever been said on the subject by politicians or newspapers, has been directed to this point in regard to an amendment. We know of nobody who holds that Congress has the constitutional right to [illegible] the qualifications of voters for members of that body; nor do we know of any sensible [illegible] who would hold it unconstitutional to so amend the Constitution as to give Congress that right. But of the expediency of such an amendment, there might be a very wide difference of opinion. The question, however, is not, and may never be, before the country, and it is therefore [illegible] at this time to discuss it.

But the *Chronicle* is also in trouble about the action of Congress in relation to Colorado. The bill to admit that Territory as a State in the Union [illegible] conditions, and it believes that conditions are entirely unconstitutional. There is to be no abridgement or denial of the elective franchise to any person by reason of race or color except Indians; and the time for holding the election for State officers and members of the Legislature shall not be later than sixty days after the passage of the bill to admit the State. The *Chronicle* [illegible] "Note requirements." We shall do so cheerfully. [illegible] many of them. Few Democratic editors may know it, but Congress has always exercised the power of prescribing such conditions for the admission of States as have seemed reasonable. The act of 1802, under which Ohio was admitted, prescribed that the Constitution of that State should "not be repugnant to the ordinance of 1787." The same condition was imposed on the people of Indiana and Illinois. On the admission of Louisiana, [illegible] was exercised in a still more remarkable manner. The government of the Territory of Orleans had always been administered according to principles of the civil law. The common law [illegible] recognized there. Trial by jury was unknown [illegible] inhabitants. Instead of a privilege, they considered its introduction an odious departure from their ancient administration of justice. They were far more hostile to the innovation than any portion of the people of Colorado can be to equal suffrage. Had they not been compelled, they would never have introduced it. But Congress made it a condition of their admission into the Union that their Constitution should contain a provision securing trial by jury, and they were forced to accept it. Even the language of the Territory was required to be changed. The inhabitants were wholly French and Spanish. [illegible] was the only language understood or spoken. But Congress required of them a Constitutional provision that legislative enactments and judicial proceedings should be in the English language. Can any stickler for strict construction point out the place in the Constitution which expressly authorizes these acts of a Democratic Congress?

The case of Missouri is, if possible, still more clearly in point. Not only were certain specified conditions required to be inserted in the Constitution, but an act was passed requiring of the Missouri Legislature a solemn pledge that certain descriptions of laws should never be enacted by the State. This pledge was enacted as a condition precedent to admission; the Legislature complied with it, and a Presidential proclamation announced that Missouri had thereupon become a member of the Union. In the case of Nevada, conditions were also imposed, which were intended to be limitations on the power of the new State. Thus it appears that it has been the constant practice of Congress to prescribe for the admission of new States whatever conditions might seem reasonable to that body.

In regard to the provision requiring Colorado to hold her election for members of the Legislature and State officers within sixty days from the time of the passage of the bill, the *Chronicle* wants to know if this action of Congress with respect to "the State of Colorado" is not usurpation, inasmuch as it fixes the time of her election? The simplicity of this question is charming. Colorado will not be admitted as a member of the Union immediately on the passage of the bill by Congress; she will not come in until her Legislature accepts the conditions prescribed, and this cannot be done until a Legislature is elected. Colorado will remain a Territory until her acceptance in due form of the conditions of admission, and Congress provides for the early election of a Legislature, in order that the matter may be speedily acted upon. The act in relation to Missouri, which passed in February, 1821, required her assent to the conditions of admission prior to November of that year. The course which Congress proposes in relation to Colorado is entirely similar. It is no interference with the laws of a State, because Colorado is not yet a State and cannot be until, like many which have been admitted before her, she assents to the conditions which Congress requires.

We trust this exposition will convince the *Chronicle* that the proposed action of Congress in regard to Colorado, (we have not yet heard of the passage of the bill for her admission), need give no one any alarm for the integrity of the Constitution. Our reason for devoting so much space to the subject is to show the unfounded nature of the current Democratic talk about the "usurpation of Congress." This case is an example which illustrates the general habit which their newspapers have of raising a great outcry on subjects which they know nothing about. We are compelled to meet them on this ground and refute their assumptions, or give up the whole field to their persistent, though blundering misrepresentations.

The telegraph has frequently mentioned the case of John Young Brown, a member of Congress from Kentucky, who, on account of his disloyalty, has not been permitted to take his seat. The committee rely wholly upon his own version of a speech he made in April, 1861, and which he admits he uttered frequently in public both before and after that date. His words were as follows: "Not one man or one dollar will Kentucky furnish to Lincoln to aid him in his unholy war against the South. If this Northern army shall attempt to cross our borders, we will resist it unto the death, and if one man shall be found in our Commonwealth to volunteer to join them, he ought, and I believe will be, shot down before he leaves the State."

We hear very little now of the effort to invalidate the act of Congress creating the State of West Virginia, but it is instructive to notice that the late Democratic Convention of that State resolved that they regard the existence of the State as an accomplished fact, and declared its "unalterable determination" to maintain it.

The Union Convention of Marion county is called to meet on the 21st of March. It will contain 72 delegates.

FROM THE UPPER COUNTRY.

From the Lewiston *Journal* of the 1st we get the following:

MAN SHOT.

At Jackson's Bridge, on the south fork of the Clearwater river and on the trail leading to Elk City, on Wednesday the 29th ult., about four o'clock P. M., Chas. Acock shot Frank Atkins. The ball penetrated Atkins in the back just below the junction of the neck with the body. Atkins is partially paralyzed, and it is thought that he cannot survive the injury. Mr. Garrison who gave us the news, left at midnight after the affray and reached here Thursday evening, about eight o'clock—traveling about eighty five miles to procure a doctor for Atkins. Immediately after the affray, Acock left for L. P. Brown's, to surrender himself to the authorities—on foot, and has not been heard of since. The weather was severely cold and it is apprehended that he became lost and is frozen. Atkins, if he dies, leaves a family. We learn no further particulars except that the occurrence was the result of a drunken broil.

FROM WARREN'S.

Expressman Hunt arrived on the morning of the 20th ult., bringing news and express matter through in nine days. The Hic Jacet mill is running and running well. They can crush eight tons of rock per day, though they do not design to crush more than five or six in that time. They will have near forty tons of the Hic Jacet ore crushed before the first of February. The next crushed will be thirty tons of the Sampson ore, and afterward about thirty tons of the W. B. Knott and then about twenty five tons of the Scott; nearly all of which is now extracted from the veins.

The Pioneer mill will start again some time this month. Capt. Williams is building a furnace and making other preparations for the extraction of silver. The camp is as lively as could be expected—the weather pleasant and the snow only about three feet in depth. The traveling—Mr. Hunt declares—is not severe; very little snow along the trail.

FROZEN.

Mr. Oscar Boots, a miner on Gold creek, tributary to the Palouse river, came to this place about the 1st of January, to procure supplies. He started on his return on the 3d inst, and was four days making the forty miles between here and Wagoner's ranch, the crossing of the Palouse. He was thinly clad, having on very light boots and canvas pantaloons and no outer clothing, nor was he provided with an ax or knife with which to procure wood. On the third night [illegible] partly frozen, having slept with little covering, thin clothes and no fire. On the morning he started leaving his supplies and traveled all day to reach the ranch. When he arrived his right hand and his foot to the ancle, was entirely frozen. There is a possibility of his suffering the loss of a limb, yet, hopes of restoration. A friend has come here for medical aid and returned.

FIRE AT LEWISTON.

[From the Journal Extra, Feb 5th.]

On Sunday, the 2d inst., between nine and ten o'clock, A. M., a fire broke out on Montgomery street, from the building known as the California Bakery, and owned by Constantine Baker. When discovered the insatiate destroyer had gained such progress, that to successfully combat its raging and further destruction of property was impossible, until the entire row connected therewith, to the east and west was demolished or consumed, though every effort was made and all means employed to stay its ravages. To enumerate the buildings we will commence at the west end of the row and take them successively eastward. First, were two houses belonging to J. Boener, next, the Challenge Saloon, Norton & Bunker, next, Madam Shute's house, next, the Globe Hotel, A. Bittner, next, the California Bakery, C. Baker, next, James Gage's Store; next, C. Winch's Store, next, Schenk's Saddler Shop. The houses of Boener and Schenk were demolished to stay the progress of the fire, and the others were burned. The time of day being favorable, the greater part of the contents were removed and saved. There being no wind, and snow on the roofs, the fire made very slow headway and gave opportunity to arrest its havoc and prevent a general conflagration. Messrs. Baker, Winch and Bittner were the principal losers. We estimate the entire loss to be about twelve thousand dollars, not considering the interruption of business. Although the burnt district is small, yet, it is in the heart of the business part of the city, and those who escaped feel themselves fortunate indeed. The origin of the fire is uncertain, except that it was purely accidental, the persons in the house when it was discovered by those outside, knew nothing of it.

FROM GRANDE RONDE.

The Walla Walla *Statesman* of the 7th inst gives the following:

From Mr. Jacobs, who has just returned from a short visit to Grande Ronde Valley, we learn that although the times are somewhat dull in that section, the people are getting along moderately well, and are buoyant with the hope that the coming spring will usher in prosperity to the settlers. From Uniontown to LaGrande, a distance of 15 miles, there is considerable snow on a portion of the route, and on the balance the ground is bare and the grass looms up fresh and green. Stock of all kinds doing well, and looking in good condition.

MATTERS ABOUT WALLA WALLA.

We learn from Mr. Boyer, that the residence of Mr. R. G. Nowlan, on the Touchet, took fire on Thursday morning, and was burned to the ground. Mr. N. was near the building when it took fire, and assisted in saving most of the household fixtures from the flames. The fire is supposed to have originated from a stove pipe near the roof in the upper story of the house. The loss of building and articles not saved, will not fall short of $1,500.

Mr. John H. Clute, well known in this community as keeper of the Hotel at Warm Springs, on the Thomas and Ruckle road, committed suicide on Thursday, about four o'clock in the evening, by means of a pistol. He had been in town for some time past, and it was thought he was making preparations to go back to his house and family at the Springs. It is stated that he was observed, before the fatal act was committed, to come down stairs from a room over Mr. Barrett's saloon, where it appears he stopped a portion of the time, and going into the saloon, went behind the bar, took a pitcher of water and went back up stairs. No particular attention was paid to the circumstance at the time. Soon after, some one on going up stairs found Mr. C. dead by the side of his bed on the floor. A derringer pistol was held in one hand, and the warm blood was oozing from the temple, where the ball took effect. No particular cause has been assigned for the self murder. Mr. Clute was about forty-nine years of age, and had a large massive frame. His remains have been taken to the residence of Mr. Geo. F. Thomas, and will remain there until burial, which will probably take place sometime to-morrow, according to directions of Mrs. Clute, who has been sent for and is expected to arrive from the Springs to-day, Friday.

PRACTICAL.—The New York *Tribune* thinks that when the present rage for pedestrianism subsides, a good muscular trial could be had by two men laying a wager to decide which can saw the most wood for the poor families.

NEW ORLEANS, Feb. 1[illegible].—There was a Democratic mass meeting at St. Charles theater to-night. The building was densely filled. A resolution was adopted declaring President Johnson as the preference of the Southern Democracy. Ex-Governor Weller, of California, was one of the speakers.

Southern News

CHARLESTON, Feb. 1[illegible].—The Convention occupied the morning in discussing a resolution asking Congress to loan the State $1,000,000 for the purpose of purchasing lands for the landless.

Judge Underwood to-day remanded Churchill Combs to the custody of the military. He decided that Congress, which is the war making power, has not yet declared peace, and the country being in a state of armistice the civil courts have no right to take prisoners out of military custody. The case goes to the Supreme Court.

Gen. Schofield has issued several orders about registration. One orders a new registration in Richmond on March 2d. Another provides that when voters have changed their residence they may register in the district where they reside. A third is for the guidance of registration and Boards of Directors. Where a person held a United States office and then voted voluntarily for secession he is disqualified.

Meetings to Urge the Removal of the National Capitol

ST. LOUIS, Feb. 16.—The Common Council have held meetings to urge the Missouri Senators and Representatives in Congress to favor the removal of the National Capitol to St. Louis. Also asking the State Legislature to take action in the same direction.

Sale of a Steamer.

NEW YORK, Feb. 1[illegible].—The steamship *Quaker City*, was sold at auction yesterday, by the United States Marshal for $15,000. She was libelled for claims for seamen's wages to the amount of $1,605.

A letter from Shanghai dated December 2d, says Minister Burlingame and party were detained at Tung Sing though accompanied by a large Chinese escort, on account of the presence of a large band of robbers. It is supposed they desired to capture his party for ransom.

From the West Indies

NEW YORK, Feb. 16.—Advices from St. Kitts say the Legislature has made overtures to the insurance companies for advances to rebuild the burned town of Barcelona. The rains had been excessive there. Advices from [illegible] state that the drouth causes short crops. There is much discontent. The cattle were suffering greatly. The Government of Barbadoes continued, though several officers of note have collected men.

The *Herald's* Havana special states that the American Consul, at Jamaica, had had interviews with Admiral Munday and Commodore McClintock, on the subject of dispatches that had been forwarded to Washington. They were mysterious, but point to preparations relative to Honduras and the Caribbean Islands. The American whale schooner, *Hannah Grant*, had arrived in distress. A portion of her crew, who landed in Boston, on the coast of Laguayra, had been seized by the Venezuelan Indians, but they afterwards returned two of the whale boats and eight of her crew, who are British subjects.

Miscellaneous

NEW YORK, Feb. 17.—The *Santiago De Cuba*, from Aspinwall, has arrived.

ST. LOUIS, Feb. 11.—A bill ceding a tract of ten miles square south of this city for the location of the National Capital has been introduced in the Missouri Legislature.

PHILADELPHIA, Feb. 17.—Wm. M. Swayne, founder of the *Ledger*, died yesterday.

The Pope has appointed the following Catholic Bishops for the dioceses of Philadelphia: Wm. O'Hara, Bishop of Scranton; J. F. Shanahan of Medina, Bishop of Harrisburg; Rev. Dr. Becker of Richmond, Bishop of Wilmington, Del.

BY ATLANTIC CABLE.

PARIS, Feb. 16.—The semi official journals of this city deny that there will be an immediate change in the Ministry. They also contradict the reports that the Government contemplates important alterations in the Constitution of the Empire.

ANTWERP, Feb. 16.—A fire occurred to-day which at first threatened to be very destructive. It broke out in a fleet of vessels laden with petroleum near St. George's warehouse. The flames were confined to two or three lighters. About 300 barrels of petroleum were destroyed.

LONDON, Feb. 17.—It is generally believed that Lord Derby [illegible] the head of the British Ministry.

Advices from Abyssinia state that Theodore was in camp near Magdala, and is said to be in a bad strait in a military point of view. An engagement between the two armies was imminent. Very few disaffected native chiefs now acknowledge any fealty to Theodore. Cassai of Tigre, directly and openly courts the favor of General Napier. The latter distrusts Cassai's motive, and consequently seeks to arrange a binding alliance with him so as to hold him answerable for future acts.

Thirty five thousand British troops have landed at Zoula. The advance of the army is within two days march of Antalo, half way to Magdalena, where probably a battle will occur. The Egyptians, with the contingent, embracing many Turks, are very near Magdalena, but use no caution and march in a reckless manner. The British officers and troops have suffered considerably from heat.

NEW YORK, Feb. 16.—The following foreign advices have been received by mail:

The Paris *Constitutionnel* publishes a letter from Bucharest relating that three bands of armed individuals, each 450 strong, assembled at different points of the Danubian Principalities. They appear under the command of foreign leaders, and are preparing to enter Bulgaria near the Turkish villages, and renew the scenes of brigandage witnessed last year in Roumania. The Government has been warned of their intentions, and is preparing to disarm the bands.

The Austrian Red Book has been laid before the legation. Referring to German affairs, it says Austria has entertained, since the treaty of Prague, the same peaceful, friendly sentiments towards Prussia and Italy as toward other powers. Though Austria has lost her position in Germany, it did not imply the destruction of her sympathies toward her federal allies. Nevertheless she would not act with Prussia in the Luxemburg difficulty. On the other hand she would not attempt to profit by a war between France and Prussia. The imperial government took care to prevent the Emperor Napoleon and French statesmen from expecting the co-operation of Austria in a conflict with Prussia. Impartial and neutral as she was, Austria's attitude must have greatly contributed toward the preservation of the peace. In any further proffer of its good offices the imperial government was compelled to act with the greatest prudence, as it desired neither the exercise of any pressure upon Prussia to induce her to sacrifice the German national interest, nor did it wish to lay itself open to the suspicion of confirming Prussia in resistance, with a view of bringing about a conflict.

The Red Book, referring to the Eastern question, declares that international obligations, and Austria's friendly relations with the Sublime Porte, have deterred the Imperial Government from giving any support to the Candian insurrection. The meeting between the Emperor of Austria and the Emperor of the French gave rise to a certain agreement upon leading principles, with the object of inducing the Porte not to insist on the terms with which it wished to restrict the proposed mission. Meantime the reforms by the Porte have justified the change in Austria and France. The Red Book also states that urgent representations have been made by the Austrian Cabinet to the Government of Servia, with reference to the dangerous movements going on in that country.

The Vienna *Debatte* says England is endeavoring to determine Austria, France, Russia and Prussia to suspend the transporting of Cretan refugees to Greece.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, Feb. 16.—The American Theatre on Sansome street was destroyed by fire this morning. Nothing but the bare walls remain standing. Wm. Jellings and the family of Mr. Smith were rescued with much difficulty.

A fire occurred on Spear street, south of Market, last night, by which four dwellings were badly damaged. Loss about $2,000.

All the companies in the second brigade of the California militia have been ordered to parade on Washington's birthday, the 22d inst. Gov. Haight will review them on Washington square.

The telegraph company's submarine cable between Fort Point and Lime Point, which was broken during the recent storm, was successfully relaid yesterday afternoon.

The steamship *Great Republic* arrived from Yokohama, Japan, this morning. The ports of Osaka and Hiogo were formally opened on January 1st. This was the signal for a revolution. The young Mikado was seized by Prince Satsuma and others. Stotsbashi, the late Tycoon, fled to Osaka, and placed himself under the protection of the allies. The Japanese government is now without a head. Serious disturbances had occurred at Jeddo. The palace containing the wives of the Tycoon had been attacked and burned by Satsuma's men. A desperate fight ensued, in which 140 of Satsuma's and about 40 of the government men were killed.

Admiral Bell, U. S. navy, was drowned while attempting to cross the mouth of Osaka river, on January 11th.

SAN FRANCISCO, Feb. 17.—Arrived—ships *Anonyma*, 144 days from Liverpool; brig *Wilhelmine*, 96 days from Rio Janeiro.

The opposition steamship company are selling tickets for the East until the sailing of the *Golden City*, $25 for the steerage, $35 for the second cabin and $50 for the first cabin, gold coin.

The opposition steamer *Nevada* arrived this morning and the *Moses Taylor* arrived on Saturday evening. Passengers who arrived on the *Moses Taylor* attribute the long passage to New York to low water in the river on the Nicaragua transit, necessitating the use of small boats.

The loss by the burning of the American theater is placed at $20,000, on which there was an insurance of $[illegible]. Six other fires occurred Saturday night and Sunday.

Mr. Capbells, at Cunningham's warehouse has received from London some extra choice white English oats which he will distribute gratuitously [illegible] seed.

Felix B. White, an old and well known actor, died yesterday and Dora Tracey, formerly an actress, died last night.

An order for the material and instruments necessary to construct and maintain a telegraph line between Guadalajara and San Blas, has been received in this city, and the material will be forwarded by the next steamer.

California Legislature

SACRAMENTO, Feb. 1[illegible].—In the Senate, Saturday, Roberts, from the Committee on Federal Relations, reported favorably on a concurrent resolution for the acquisition of British Columbia by the United States. Pratt reported in favor of the Assembly bill for a new charter for the city of Oakland. The bill appropriating $11,000 to the Senate and $12,000 to the House, for contingent expenses, passed. In the Assembly, Kelly, from the Agricultural Committee, reported a bill excluding Texas cattle from this State, for the protection of California stock from a cattle disease known as Texas fever.

Miss Anna Webb was voted the use of the Assembly Chamber for a political lecture in reply to Miss Dickinson on Wednesday night.

A correspondent traveling in Utah says that the waters of Great Salt Lake rose last year three feet above their former level, and are still slowly but surely rising. The lake drains an immense district, and has no visible outlet. The writer's theory is that the subterranean drains are obstructed, and as there are appearances that the level of the waters was once far above the present site of the city of the Saints, he thinks there is danger that that delightful spot may some day be again deluged.

THOSE WHO OVER TAX THE VOICE IN SINGING OR PUBLIC Speaking will find "*Brown's Bronchial Troches*" exceedingly useful, enabling them to endure more than ordinary exertion with comparative ease, while they render articulation clear. For Throat Diseases and Coughs the Troches are of service.

CHAS. DICKENS' READINGS are creating quite a sensation in the Atlantic States the proceeds of which are so enormously large that that popular author refused the sum of Twenty five Thousand Dollars to come to San Francisco—and yet the people of Oregon continue to buy their clothing and dry goods of the best and cheapest house in the State which, of course, is at KOHN & FISHEL'S

Buchtel's Photograph Gallery is the only establishment in Oregon that is thoroughly prepared to do *all the different styles* of work in the art. THE MUTUAL DOES A CASH BUSINESS ONLY AND HAS NO NOTES!

What a Note Company says!

"We commend the CASH plan as the best mode of Insurance. *None will deny this after a few years' experience of the different plans.*" The Charter Oak Life Insurance Co. (A Note Company.)

EXPERIENCE has taught business men that CREDITS must be paid for.

IN CASH COMPANIES: The first payment is the largest, every successive year reduces the premium or increases the policy, at the option of the insured. Past records of the Mutual prove that in 15 years their payments cease but DIVIDENDS continue for life.

IN NOTE COMPANIES: The first payment is the smallest, [illegible] Notes and [illegible] Dividends and increase the future *payments*.

OBSERVE: Notes must be paid for by higher rates and increased Insurance.

DIVIDENDS. The Mutual declares Dividends the first and every successive year from the date of a policy holder's insurance. N. B.—The public should ascertain from other Insurance Companies if Dividends are declared annually from the start—or annually 4 YEARS AFTER insurance.

RATES in the Mutual are lower than in any other Company doing business on the Pacific Coast—*and are considerably lower than in any Note Company*.

EVERY ADVANTAGE is offered by The Mutual—(excepting notes)—that other Insurance Companies can offer.

THE MUTUAL
IS THE OLDEST AND LARGEST LIFE INSURANCE COMPANY.

Medical Examiners:

Arrival of the Dalles Express.—Mr Cann, Wells, Fargo & Co's Express messenger, arrived from the Dalles, last evening. We are indebted to him for copies of the *Mountaineer*, Walla Walla *Statesman* and files of the Idaho papers.

We clip the following from the *Mountaineer* of Saturday. A few days ago we received a letter from a gentleman informing us that the Secretary of the Treasury of the United States, had ordered the building of the Branch Mint in this city, and that as soon as the location is selected and title perfected, the work will commence. ... The Woolen Manufacturing Company have commenced the erection of their building, which is expected to be finished in time to receive the machinery on its arrival from the East, some time in May. ... As soon as the telegraph is completed, in order to keep pace with the times, we shall commence the publication of a tri-weekly, and may be, should the increase of population and of the business of our city demand it, a daily. ... A number of farmers, living in different sections of our country, inform us that live stock of all kinds are getting along finely. And with present appearances of the weather, no further danger need be apprehended. ... We are informed from a reliable source, that Wells Fargo & Co., are making strenuous efforts to obtain a mail contract from Boise to this city direct. Should they succeed, we will get our mail matter next summer from New York in less than fifteen days, and our San Francisco letters in about seven. ... Mr Horace Rice of Fifteen Mile Creek, informs us that a large number of sheep in this county are diseased with what is known as "the scab." Mr Rice suggested the idea of calling a meeting of the [illegible] raisers, for the purpose of adopting measures to keep this horrible disease from infecting all the sheep in the country. ...By the arrival of Ad. Edgar's stage yesterday afternoon, we learn that the snow is fast disappearing on the road between here and Canyon City. There is no news from Canyon......There appears to be considerable sickness in our city among the children.

From Camp Harney—Two Men Lost.—The Vancouver *Register* says: "From a private letter from Camp Harney, dated January 22d, we are permitted to make the following extracts. Two men whose names are unknown, but who have had charge of Lockwood's cattle at this place during the winter, are supposed to have lost their lives. They started out some ten or twelve days ago to hunt missing cattle, taking only two days' provisions, since which time nothing has been heard of them—the supposition is that they have either been murdered by Indians or froze to death. This winter is altogether the most severe I have experienced on this coast, and I have been here since '49. The memorable winter of '62 is not to be compared with it. The fall of snow has been unusually great, averaging a depth of three feet. The thermometer ranged from 12 to 28 degrees below zero, for over a week, commencing on the 12th of January. I shiver from the thoughts of it yet. Our expressman performs his difficult and dangerous service on snow-shoes. We have resorted to theatricals as a means of shortening the long evenings. The performances consisted of a happy mingling of the sublime with ridiculous, in which the ridiculous had a decided ascendency. We have some average talent, however, and their entertainments have afforded an antidote for an otherwise monotonous, uneventful, suicide-inviting existence."

Home-Made.—It is a false notion altogether that we of this city or State cannot manufacture as good an article as can be made in San Francisco. On the contrary, there can be scarcely an article named, of which our people are engaged in the manufacture, but will compare favorably with the same article made in California or elsewhere. Woolens, for instance, are as highly finished and [illegible] as sterling qualities as any made in the world at the same price. Our home-made clothing is in the same category, and so is our home-made [illegible], our agricultural implements, our machinery and a hundred other [illegible]. We have had frequent occasion, heretofore, to notice many of these things particularly and we always take pleasure in doing so; for whatever means are used to spread intelligence of our manufacturing facilities and [illegible], tends directly to the advancement of the country's best interests. We are led now to these remarks by [illegible] exhibited in Mr. Grabenheim's show-case, a lot of fancy gaiters of his own manufacture, which for beauty of workmanship and taste of form, it would be hard to excel anywhere. He has some pairs of the Eugenie satins, and [illegible] kids, which would do credit to any manufacturer in the world. Will our people ever learn that it is not necessary to send to other States for the best articles, in many of the most [illegible] used lines of goods.

Circuit Court—Upton, Judge.—Proceedings of Monday, Feb. 16th:

A. J. & E. H. Dufur vs. Wm. Legg; action for trespass; demurrer to complaint sustained; leave till the [illegible] given to defendant to file answer. Stout & Reed for plaintiffs; Strong and Mitchell for defendant.

D. D. Hannah et al vs. the State of Oregon; to try title to lands [illegible] of belonging to the estate of Finlon[illegible]; demurrer to answer sustained and leave given defendant till the 20th to amend answer. Wait & Kelly for plaintiffs, Hill & Mulkey, Mitchell, Dolph & Smith for defendant.

State of Oregon vs George Henderson and A. L. Davis; grand jury returned not a true bill; defendants discharged.

Garrison Gadet, was admitted a citizen of the United States.

Giltner vs. City of Portland; action to recover fees as physician in small-pox case; jury empanneled and part of the evidence taken.

Pacific Coast Almanac.—By the *Oriflamme's* mail which arrived here Sunday evening, we received copies of the "Pacific Coast Almanac and Year Book of Facts," for 1868, compiled and published by Henry G. Langley, editor of the California *State Register*. It is a neat [illegible] of ninety-six pages, of which all but the first fourteen, are filled with statistics, tables, and miscellaneous [illegible] of the various States and territories of the Pacific coast. It is really a valuable publication, and every business man may find it of daily use for reference.

Base Ball Resurrection.—The "noble game" of base ball was [illegible] yesterday by one or two of the juvenile clubs of the city. The weather was peculiarly favorable for the reappearance of bats and flies and such. Several of the members of the older clubs had a strong attack of base ball fever and panted for the "field;" but the symptoms [illegible] of only a sporadic character and nothing serious came of it. Should the weather, however, continue as for the past few days, the "noble game" will be re[illegible] in dead earnest.

Monticello.—In conversation yesterday with a gentleman from Monticello, we learned that the people who were washed out by the flood of December, are preparing to go to the work of rebuilding the village, on a site a short distance from the old one, and on somewhat higher [illegible]. Several of them lost nearly all they were worth, but they propose to open a new page and without whining [illegible], to begin the business of life over again. It is safe to say that people of that sort of spirit will succeed.

The Ajax.—The steamship *Ajax* was telegraphed from Monticello at five minutes past one o'clock yesterday afternoon. The *Oneatta* which had been put in readiness to meet her at St. Helens, started down, shortly after the receipt of the telegram, to bring up her passengers, mails and express. She is not expected to return till this morning, as it was the intention to take on board one hundred and fifty tons of the *Ajax's* freight.

Oysters Frozen.—The Olympia *Transcript* says: "We learn that the oysters at Shoalwater Bay have been badly frozen during the late cold weather. It seems that there were very low tides at the time, and the oysters were left bare." The Olympia people are welcome to their frozen oysters, if they like them served that way—we'll take ours fried.

The Steamer Rainier.—This little steamer arrived from Monticello yesterday morning, and after a brief stay started upon her return. She was under charter, as we learned, to a couple of gentlemen who came up to purchase supplies of provisions and merchandise. The *Rainier* has evidently seen some hard service, since last here, in December.

Buoys Carried Away.—We learned yesterday from a gentleman who came up Saturday evening from the Columbia river, that the ice had carried away all the buoys in the channel at Cathlamet bay. This channel is a crooked and difficult one, and the absence of buoys probably accounts for the stranding of the *Ranger* on one of the grass islands.

An Appointment.—We learn that a telegram was received in this city yesterday announcing the appointment by the President and confirmation by the Senate, of Hazard Stevens, as U. S. Revenue Collector for Washington Territory; from which it would appear that Mr. Moore has had leave to retire from official life.

Olympic Theater.—The Olympic Troupe are giving nightly performances at their new theater. Billy Wilkinson, formerly of the Tanner Troupe, arrived last evening from Victoria, and will appear with the Olympics, this evening as end man, with Joe Delavan. The bill will be a rich one.

Paper Mail Received.—The paper mail per steamship *Oriflamme*, was brought up Sunday evening by the *Okanagan*. It is rather ancient, the dates going back to December and November last. The matter is now chiefly valuable as relics of a past age.

Gone to Astoria.—The steamer *Couch* started for Astoria yesterday morning. It is understood that she will bring off the *Ranger's* passengers, should that steamer not succeed in getting off the ground before the return of the *Couch*.

Soiree.—The dancing club recently organized in this city has adopted the title "Terpsichorean Club" and will have a social party at McCormick's Hall every Tuesday evening. The second of the season will take place this evening.

Produce.—Arrived per steamer *Alert* from Oregon City yesterday, 1,330 qr sks flour, 205 bags wheat, 447 boxes apples, 107 bbls beef, 57 cases pork, 8 bales woolen goods, 4 cases mdse, and 12 sks dried apples.

Pictorials.—We are indebted to Capt. McCormick for files of [illegible] pictorials, which though old, are none the less welcome. McCormick has a large assortment of them.

U. S. District Court—Deady, Judge.—Yesterday, in the matter of Johnson, a bankrupt, the accounts were settled and the assignee discharged.

The Okanagan.—This steamer has resumed her regular trips to Monticello, and will hereafter run as per advertised schedule.

DR. G. W. COOL,
DENTIST.

THOSE WHO DESIRE FIRST CLASS DENTAL SERVICES might do well to give him a call. He is making a NEW AND IMPROVED VULCANITE PLATE. The nature of his improvement consists in lining the entire concave surface with fine gold; it makes the plate twice as strong and one-third times thinner than the common vulcanite plate. It also prevents the acids of the mouth from roughing the plate, and from turning it black, which is a common occurrence. One half of the common vulcanite plates turn black after being in use a short time, particularly where tobacco is used for smoking. His new style of plate admits of a very fine finish on the concave or palate surface. His office is the only place where such work can be had. The improvement is his own invention, for which he has received December 31, 1867, a patent from the United States Patent Office. He has been making this style of work for the last two and a half years, and has specimens of the work which can be seen at his office. This work has given satisfaction in every case.

MARTIN LUTHER once thought he saw the devil in his chamber, and threw an inkstand at his head. Had they had in those days AYER'S PILLS to exorcise all the devils that come from a disordered stomach, his laughable fright would not have been a matter of history.

DR HOSTETTER'S STOMACH BITTERS should be in the possession of everybody in the mining region. As a preventive of various forms of disease to which the gold seeker is liable, it has no superior. While it is quite palatable even as a beverage it is speedy and powerful in its effects upon the system. In all cases of diarrhea, dysentery and the prevailing fevers consequent upon exposure the Bitters will be found invaluable as a corrective. No miner should enter upon the exposed camp life of a miner without being provided with Hostetter's preventive of stomach disease, nor should any of those who are now engaged in the occupation fail to have recourse to the Bitters. Sold by all druggists and dealers everywhere.

PERRY DAVIS' VEGETABLE PAIN KILLER.

THE UNIVERSAL REMEDY FOR INTERNAL AND EXTERNAL COMPLAINTS.

At this period there are but few of the human race unacquainted with the merits of the Pain Killer, but while some extol it as a liniment, they know but little of its power in easing pain when taken internally, while others use it internally with great success, but are equally ignorant of its healing virtues when applied externally. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands alone, unrivalled by all the great catalogue of Family Medicines, and its sale is universal and immense. The demand for it from India and other foreign countries is equal to the demand at home, and it has become known in those far off places by its merits.

H. W. SHIPLEY'S
PACIFIC
TURBINE WATER WHEEL!

Fig. 1,

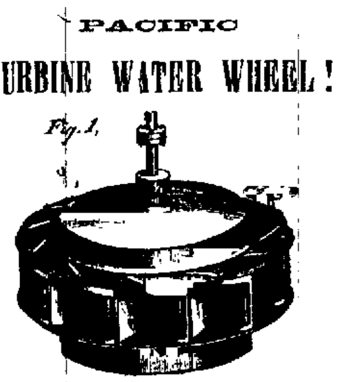

Fig. 2,

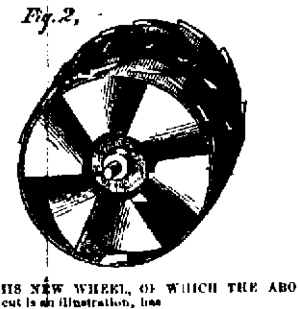

THIS NEW WHEEL, OF WHICH THE ABOVE cut is an illustration, has

FOUR SETS OF BUCKETS,
USES THREE-FOURTHS OF THE WATER TWICE,
Giving at least Twenty per cent more Power than any other Wheel ever invented.

Figure 1 is an axial section of case with wheel enclosed and illustrates the arrangements for applying the water through a series of openings in the periphery of the case, direct upon the wheel by fixed guides. Pivoted gates extend inward toward the opening, which are between their inner ends, and when open, fit closely against the guides, thus offering no obstruction to the inward flow of water. The gates are opened and closed by a hand and ratchet wheel, upon which operates a rack segment, on a ring which extends entirely around the top of the case, partially revolving the ring from different points. The revolving of the ring opens or closes the gates by means of connecting rods.

Figure 2, a perspective view, shows the three sets of periphery and the radial set of buckets. The peculiar construction is such that it uses three fourths of the water twice—something never before achieved in any water wheel. The buckets are very shallow, and confine the water to the outer diameter of the wheel. After the water exerts all the power that can be obtained on three sets of well arranged periphery buckets, it passes to, and is again used upon, the radial set, giving an additional power and producing an increased velocity and steadiness of motion, truly wonderful.

Aware that the new principles of this invention may not be readily comprehended, the inventor has only to say that seeing the wheel work is the most certain way of removing skepticism. He will warrant every wheel to perform all that he claims for it. By its use, many of the now abandoned water powers may be again made the means of adding to the employment and wealth of the country.

Manufacture of the Wheel.

The Inventor has made arrangement with the WILLAMETTE IRON WORKS, Portland, for the manufacture of these Wheels.

All orders addressed to either
WILLAMETTE IRON WORKS,
Or H. W. SHIPLEY,
Will receive prompt attention.

Send for Illustrated Descriptive Circulars, and Price Lists.

MR. H. W. SHIPLEY—Sir: In reply to your inquiry as to how I like your Pacific Turbine Wheel, I have to say that I have used one over-shot and three Leffel wheels—10, 13 and 15 inch diameters. When I substituted your 15 inch wheel for the 13 inch Leffell wheel, though unfinished, it worked the machinery like a top, using 52 ft of water per minute more than the 13 inch Leffell. At your request I subsequently took your wheel out that it might be finished, and then I put in a 15 inch Leffel, but it gave no better power than yours while it used 52 cubic feet more water, per minute. After some months, I replaced your wheel and am still using it with the most satisfactory results. I have subjected it to some severe tests. For instance while running the circular saw in a log which square 15 inches, I added the planer with a 9 inch knife, cutting from one eighth to one fourth of an inch depth, without in the least slacking the speed. After thorough tests of both wheels, I am satisfied that your wheel with gates one eighth of an inch open gives as much power as the Leffell with gates one third open. At half gate, your wheel gives double the power of the Leffel at half gate. At full gate, the power of yours exceeds that of the Leffel, by from ten to twelve per cent. At quarter gate, the Leffel holds no comparison with yours at quarter gate.

N. B. Mr. Shipley was not present at either of the trials of his wheel, he being sick at the first, and absent from the State, at the second trial.

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of H consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

BEWARE OF COUNTERFEITS.
Each package bears the signature of G. VENARD.

GROB'S
MUSICAL AND EDUCATIONAL
INSTITUTE!
also,
DAY & BOARDING SCHOOL
FOR YOUNG LADIES.

THIS INSTITUTE IS SITUATED IN A RETIRED and beautiful location, away from the business portion of the city, on Third, between B and C Sts., Portland, Oregon.

Attached to the building are extensive and beautiful grounds, for the convenience of pupils.

The Educational Department will be in charge of an efficient corps of Teachers. CAPT. J. P. C. ALLSOPP, (formerly a Professor in the University of Louisiana, and for the last five years Principal of a Collegiate Institute in the Southern part of California), Principal.

No effort will be spared to make this Institute equal to the best on the Pacific Coast. The Course of Studies will embrace all the branches usually taught in first-class Seminaries in the East, including the Classics, French, German, Spanish, Mathematics, &c., &c.

The Musical Department will be conducted by PROF. H. GUIDO GROB, Graduate of Paris Conservatoire.

Parties from the country may rest assured that under the care of MRS. GROB, (Matron of the Establishment), they will experience all the attention of a mother and enjoy the comforts of a home.

N. B.—Particular attention will be paid to the choice of Text Books, in order to avoid anything of a *Sectional* or *Partisan nature* in our curriculum of studies.

For further particulars, enquire at the Institute or address H. GUIDO GROB, P. O. Box No. 168.

HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Billious Remittent Fevers; Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels,
Steadies the Nerves and tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or
PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant; but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.

The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.

As a Genuine Tonic, HOSTETTER'S BITTERS produces effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re enforce and re establish them.

Last but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.

The Case well Stated

The following is that part of the message of Gov Fairchild of Wisconsin which relates to national affairs The Governor's words go straight to the mark

Those who sustained this Union and who gave to its support freely of their blood and treasure have some rights which rebels are bound to respect and which will be enforced They have a right to an early restoration of the Union of the States lately in rebellion upon a basis of equal and exact justice to all men They have a right to demand that the local governments of these States shall be placed in the hands of men who are neither foresworn nor unrepentant of their treason that Union men of every grade and condition shall receive that protection to which they are entitled and without which this government would be but a stupendous farce They are satisfied with the Congressional plan of reconstruction now being carried out and will not materially change it because it guarantees these rights and because they believe its main features are necessary to the future safety of the Republic The principles which underlie it cannot be successfully opposed and those at the South, who are so bitterly hostile to them are proving themselves entirely unworthy of the generous forbearance received by them at the hands of a people whom they have so terribly injured Nothing is demanded in a spirit of anger. Seeking the safety of the nation we demanded nothing only what is deemed essential to the future peace and perpetuity of our free institutions No one asks the permanent chastisement of any one class of people at the South but simply that those who by their position and education, controlled the Southern masses and led them into rebellion against the Government, and who are responsible for the blood which has been shed and the lives which have been sacrificed shall not be permitted to regain their former political power until they indicate by their acts a willingness to acquiesce in the principles which pledge to all men equality before the law and ample protection in the enjoyment of all their rights which belong to men and citizens Early restoration to all forfeited privileges is within their grasp Let them be embittered no longer by sectional rancor and defeated partisanship Let them join [illegible] with the people of the North in redeeming [illegible]'s credit and placing the Republic upon a basis of justice and right which shall endure through the coming ages, and gladly will all extend the hand of friendly, hearty welcome strong in the consciousness of being right and in the full faith that ultimately the right must and will prevail, united by an honest devotion to the best [illegible] of the entire country, and unfaltering in the holy [illegible] to hand down to posterity with[illegible] a stain and stronger than ever before, the Government which the fathers gave them the Union men of the land, North and South will [illegible] firm and undismayed until the great work is [illegible] and harmony reigns once more throughout the whole domain

Weather and Stock.—The Albany *Democrat* of [illegible] day has the following

We write this on Thursday morning (13th) The [illegible] the north, though not very cold [illegible] last night. For some days past it [illegible] a little but the nights generally have been cold enough to arrest the work of the day, and the result has been a protracted battle between heat and cold, by which neither has very [illegible] gained—a sort of "nip and tuck" fight, in which, thus far, "nip" has rather the advantage [illegible]

[illegible] tell us that they never before saw so long a cold [illegible] as the present in Oregon It has been [illegible] to Oregonians, not because [illegible] very cold, for it has not—but [illegible] are not prepared for it The [illegible] are very mild here and but few [illegible] for cold weather As a [illegible] of apples and potatoes have been frozen, and are a dead loss to [illegible] Stock has suffered more or less also. We are informed that a sheep raiser in [illegible] Neck," near Brownsville, has lost 1,000 [illegible], and that another, living near Sand Ridge, has lost 350 head within a few days past [illegible] until the crust formed on the [illegible] this prevented them from digging down to [illegible] says that he saw many [illegible] lying dead, having their fore legs cut to the bone and covered with blood, in their efforts to [illegible] under the snow

[illegible] Democracy are in the [illegible] of too large a majority, and are, consequently, falling out by the way "The Union [illegible] party" proposes to the "so-called Democratic party," through Col. Jacob, to "do [illegible] secessionism, and think the men who support [illegible]" Says Col. Jacob

"The National Democratic Convention will be [illegible] to [illegible] the right of secession and [illegible] the Union soldiers, or the National Democratic party will [illegible]; the so-called Democratic party must do likewise, adopt the entire [illegible] Democratic platform, swallowing the two [illegible] that condemn secession and [illegible] the Union soldiers and sailors, or it will be [illegible] to the National Democratic party, and will [illegible] by the people of this State Our wing of the Democracy will not unite with Dr [illegible] & Co.'s wing until the latter consent to an [illegible] division of the Central and County [illegible], and an explicit declaration that the [illegible] of an unjust warfare upon Union men [illegible]"

New York gossipers say that Dickens' agent, Dolby, got too jolly a few nights since and was [illegible] by a [illegible] man and put into a cell in the [illegible] precinct police station. In the morning he [illegible] had "Don't let it get into the papers, you know," he said "By Jove! I—upon my [illegible]—you know."

PORTLAND OREGON

FROM T M GATCH, PRINCIPAL OF THE PORTLAND ACADEMY AND FEMALE SEMINARY

Having lately had an opportunity of becoming somewhat acquainted with the workings of this Institution I unhesitatingly recommend it to all who wish to secure a practical business education in the shortest time and with the least expense The idea of going from Oregon to California to attend a Commercial School is simply absurd

It is my opinion that pupils instructed by Messrs LAUDEN and DeFRANCE receive greater attention than those of any other Commercial College on the coast and this I say without wishing to detract from the usefulness of schools I have visited in San Francisco "

HIRAM SMITH'S

Ophthalmic Panacea!

IN BRINGING THE ABOVE NAMED NEW REMEDY to the notice of the Public the Proprietor begs to state a few facts in relation to it as follows

It originated in Prussia where the science of Medicine is thoroughly taught and practised but owing to the poverty of its discoverer its wonderful properties were not known beyond the limited circle of his acquaintance in which however it proved itself absolutely infallible in eradicating disease from the eyes

He emigrated to this country bringing his discovery with him It seems to have been indifferent to the propriety of giving it general and wide spread [illegible] [illegible] native country [illegible] [illegible] eight years

The present proprietor was [illegible] for many years was a witness to its wonderful efficacy and after ineffectual efforts to persuade the inventor to widely disseminate the knowledge of its virtues finally became himself the possessor of the secret of its preparation

And now while he does not deny that he hopes and expects to make money by its sale he [illegible] yet his chief aim is a desire to benefit his fellows by presenting to them a remedy *which does as it will cure where medical science* and all experience have failed

He wishes it to be understood that it will cure *all* diseases of the eye whether of recent or long standing but its greatest power is exhibited when it is applied to old *Chronic Cases* of long standing which have resisted every other attempt to cure them and which have been given up as hopeless and past being cured or relieved

He asks those afflicted in this way to give it a trial and so confident is he of its success that he instructs all his agents TO REFUND THE MONEY IF IT FAILS TO CURE

It has within the past year cured cases of GRANULATED LIDS INFLAMMATION &c of FIVE SIX NINE FIFTEEN and SEVENTEEN YEARS STANDING evidence of which fact is furnished in the testimony of the following persons living at and in the neighborhood of Harrisburg Linn county

ALEXANDER [illegible] WALKER was cured of inflamed eyes of nine years standing Had been treated by eminent physicians [illegible] that time without effect

Mrs MONTGOMERY of Harrisburg had inflamed eyes for over two years For one year they were so bad that she could not work Was finally completely cured by the Ophthalmic Panacea

F B MOORE of the firm of Moore Garst & Baker of Harrisburg had granulated lids for six years

NATHANIEL BELL of Clackamas county had inflamed eyes a bad case—for over fifteen years

ROBERT RAMLEY and W [illegible] PORTER of Harrisburg JOHN M HOLLOWAY of [illegible] County G R WARD of Lane County were all afflicted more or less severely with diseased eyes and were [illegible] by the Ophthalmic Panacea

All the above named persons have given lengthy [illegible] statements which may be seen at the proprietor's office Harrisburg

Medical.

DR. J. C. YOUNG,

Medical and Surgical INSTITUTE.

CONSULTATION IN ALL CASES FREE

CURES GUARANTEED OR NO PAY REQUIRED

IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED.

The above rules, established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.

There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.

It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call especial attention to that terrible scourge,

SEMINAL WEAKNESS,

That is sapping with its insidiousness the very life of its victims, in the treatment and cure of which the Institute has earned so enviable a reputation.

READ! READ!

I am aware that by dwelling upon so uninviting a subject as the decay of manly vigor through the loss of the vital principle of life the ignorant may asperse my motive but the desire to point out to those who suffer languish and decay the true cause of their affliction is too great an incentive to be forced into abeyance. How extended the terrible disease of Seminal Weakness is no one but the practical specialist who devotes his time to its treatment can tell but its presence can be detected by the most inexperienced by noting the following symptoms, Weakness of the back and limbs [illegible] feelings [illegible] muscular power nervousness irritability cold feet or hands, accompanied by hot head symptoms of consumption short breath flushings of the face aversion to society confusion of the mind, loss of memory nightly emissions or [illegible] slight discharges upon the least excitement trembling palpitation of the heart irregular appetite variable temper etc

YOUNG MAN If you experience any of the various symptoms enumerated above, pause and consider The present is the golden moment in which you may secure health and happiness You may feel strong now but if you have ever practiced the vice of self-abuse even in the [illegible], you have the seeds of [illegible] in your system and their undermining influence will sooner or later dash the fair edifice of your strength to the ground leaving you a helpless abject being It is not a disease that declares itself at once Therein lies its great danger; for while the patient is being treated for some affection of the Heart Lungs Brain or Digestive functions he sinks into a general debility that soon adds him to the list of the victims of the terrible disorder Seminal Weakness

See in the bent form and languishing steps, the poor victim of the fascinating vice Mark the course of the destructive complaint in the hollow cheek and dull eye

Drowsiness is one of the premonitory symptoms At first it is easily shaken off but it grows eventually into a great disinclination to pursue his regular business The mind becomes apprehensive and restless nights succeed days of depression

It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery In a single instant it may wither your fond hopes and blast your honest aspirations

Marriage is sought by a natural impulse as a hope of relief This is an error of the first magnitude for the system is unprepared for the exigencies of the occasion and suddenly fails and he finds himself in a deplorable condition from which there is but the slightest hope of recovery Or if the marriage should result in offspring they are puny distorted decrepid and degenerate This is applicable to both sexes whether married or single and to all times of life

Do not delay if you feel any of the symptoms of the terrible complaint, or if your acts have been such as to lead to them but by instant application secure to yourself the only hope of health and happiness The Doctor uses no mercury or other deleterious drugs—cures when taken in time always guaranteed and full and proper vigor restored

The afflicted are assured of every confidence.

PERSONS AFFLICTED WITH VENEREAL

During the seventeen years since the establishment of the Institute the number of cases of Venereal that have been treated show a record unsurpassed by any hospital in the world and the success that has invariably marked the course of treatment

Without Mercury or other Deleterious Drugs,

Shows conclusively the use of them to be not only uncalled for but actually dangerous for it is a thoroughly established medical principle that those poisonous drugs by entering the blood, ruin the constitution and destroy life

The Doctor effects a cure in recent cases in a few days and finds no difficulty in curing those of long duration without submitting the patient to such treatment as will draw upon him the slightest suspicion or oblige him to neglect his business whether in doors or without The diet need not be changed Cures always guaranteed or no pay required.

IMPORTANT TO FEMALES

When a female is in trouble or afflicted with disease and requires medical or surgical assistance the inquiry should be Where is there a physician competent to administer relief and whose respectable standing in society will recommend him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are feels called upon to interpose, and to call the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years and is fully qualified to administer in all cases both medically and surgically not in a superficial manner but thoroughly a master of all as the result of study and practice both in hospitals and private families—can make, to save them from the hands of the unqualified uncertain and designing Therefore families can rely upon him as [illegible] All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed consultation by letter or otherwise free Cures guaranteed in all weakness and trouble incidental to the sex. Private apartments are provided when desired where can be had all the advantages of unremitted attention of the Doctor and the most skillful and faithful nurses

To Correspondents — Persons either male or female residing in the Interior are often deterred from consulting the Doctor because they cannot spare the time nor incur the expense of a visit to the city To such he would say that a plain statement of the symptoms and information bearing upon the complaint will enable him to prescribe for them so that they can be cured at home None need have any false delicacy about writing no matter what the nature of their complaint as the communication will be seen by no one except the Doctor and will be treated with the utmost confidence and either be returned or destroyed

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

Scrofula and Scrofulous Diseases.

From Emery Edes a well known merchant of Oxford Maine

I have sold large quantities of your SARSAPARILLA but never yet one bottle which failed of the desired effect and full satisfaction to those who took it As fast as our people try it they agree there has been no medicine like it before in our [illegible]"

Eruptions, Pimples Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev Robt Stratton Bristol England

I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA My daughter aged ten had an afflicting humor in her ears, eyes and hair for years which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months "

From Mrs Jane E Rice a well known and esteemed lady of Dennisville Cape May Co., N J.

My daughter has suffered for a year past with a scrofulous eruption which was very troublesome Nothing afforded any relief until we tried your SARSAPARILLA which soon completely cured her."

From Charles P Gage, Esq, of the [illegible] Gage Murray & Co, manufacturers of papers in Nashua N H

I had for several years a very [illegible] humor in my face which grew constantly worse until it disfigured my features and [illegible] erable affliction I tried almost every thing a man could of both advice and medicine, but [illegible] relief whatever until I took your SARSAPARILLA It immediately made my face worse as you told me it might for a time but in a few weeks the new skin began to form under the blotches and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA "

Erysipelas—General Debility—Purify the Blood

From Dr, Robt Sawin, Houston St., New York.

"DR. AYER. I seldom fail to remove Eruptions and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people "

From J E Johnston, Esq, Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach and took hundreds of dollars worth of medicines The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA Took two bottles, and some of your PILLS Together they have cured me I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all "

From Hon Henry Monro, M P P, of N C W a leading member of the Canadian Parliament

"I have used your SARSAPARILLA in my family for general *debility*, and for *purifying the blood* with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes

From Harvey Sickler, Esq, the able editor of the Tunkhannock Democrat, Pennsylvania

"Our only child, about three years of age, was attacked by pimples on his forehead [illegible] until they [illegible] sore, which covered his face, and actually blinded his eyes for [illegible] days. A skilful physician applied nitrate of silver and [illegible] apparent [illegible] For [illegible] days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other The whole neighborhood predicted that the child must die "

Syphilis and Mercurial Disease.

From Dr Hiram Sloat of St Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of Syphilis and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A J French, M D., an eminent physician of Lawrence, Mass, who is a prominent member of the Legislature of Massachusetts

"DR. AYER My dear Sir I have found your SARSAPARILLA an excellent remedy for Syphilis, both of the primary and secondary type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required "

Mr Chas S Van Liew, of New Brunswick, N.J., had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhoea, Whites, Female Weakness,

are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. [illegible] however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of irregularity, Leucorrhoea, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhoea of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by this EXT SARSAPARILLA

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J C AYER, M. D., & Co., Lowell, Mass, and sold by
